## Fund Objective

## Portfolio Team

**Frank Holmes, Chief Investment Officer**  
**John Derrick, CFA**  
**Tim Steinle, CFA**  
**Romeo A. Dator, CFA**

## Fund Strategy

The fund invests, under normal market conditions, at least 80 percent of its net assets in equity securities such as common stocks, preferred stock, convertible securities, rights and warrants, and depositary receipts of companies located in emerging market countries or in companies with a significant business presence in emerging countries. Emerging market countries are those countries defined as such by the World Bank, the International Finance Corporation, the United Nations or the European Bank for Reconstruction and Development.

Global Emerging Markets Fund  
Growth of \$10,000 from 02/28/2005 to 06/30/2009

The chart illustrates the performance of a hypothetical \$10,000 investment made in the fund during the depicted timeframe. Figures include reinvestment of capital gains and dividends, but the performance does not include the effect of any direct fees described in the fund's prospectus (e.g., short-term trading fees) which, if applicable, would lower your total returns.

The Adviser for the Global Emerging Markets Fund has contractually limited total fund operating expenses (as a percentage of net assets) to not exceed 2.50% (exclusive of acquired fund fees and expenses of 0.06%) on an annualized basis through September 30, 2009. These contractual limitations, however, may be revised at any time by the funds' Board of Trustees. Performance data quoted above is historical. Past performance is no guarantee of future results. Results reflect the reinvestment of dividends and other earnings. Current performance may be higher or lower than the performance data quoted. The principal value and investment return of an investment will fluctuate so that your shares, when redeemed, may be worth more or less than their original cost. Performance does not include the effect of any direct fees described in the fund's prospectus (e.g., short-term trading fees of 2.00%) which, if applicable, would lower your total returns.
