

# Global MegaTrends Fund (MEGAX)

January 2011

Symbol: MEGAX CUSIP: 90330L-20-4  
Inception Date: 10/21/91

## About the Fund

The Global MegaTrends Fund seeks large-scale and sustainable growth opportunities as evidenced by major capital expenditures in a sector, country, or region. We've identified global infrastructure as such a megatrend, making it the key focus for the fund's investments.

Unlike competing infrastructure funds, the Global MegaTrends Fund takes a "picks and shovels" approach. This means not only investing in particular projects but also in the tools, equipment, companies and people that are needed to build or service a project.

## Fund Objective

The Global MegaTrends Fund seeks long-term capital appreciation consistent with the preservation of capital.

## Fund Strategy

The Global MegaTrends Fund seeks to invest in companies that are positioned to grow by providing capital goods, basic materials, professional services or other key inputs to facilitate the design, construction, maintenance, financing, or servicing of global infrastructure properties. In addition to the focus on investments in infrastructure, the funds seeks to invest in companies that meet suitable measures of return on cash flow, growth in revenue, earnings growth and return on equity. There is no constraint upon the markets that the fund management will consider.

## Portfolio Team

**Frank Holmes, Chief Investment Officer**  
Years of Experience: 30+

**John Derrick, CFA**  
Years of Experience: 18

**Jack Dzierwa**  
Years of Experience: 16

**Brian K. Hicks, CFA**  
Years of Experience: 19

**Evan Smith, CFA**  
Years of Experience: 17

All information is unaudited and, unless otherwise indicated, is as of 01/31/11. All information refers to retail class shares unless otherwise indicated.

## Growth of \$10,000 from 12/31/2000 to 12/31/2010

The chart illustrates the performance of a hypothetical \$10,000 investment made in the fund during the depicted time frame, compared to its benchmark index. Figures include reinvestment of capital gains and dividends, but the performance does not include the effect of any direct fees described in the fund's prospectus (e.g., short-term trading fees) which, if applicable, would lower your total returns.

## Portfolio Statistics

Gross expense ratio as stated in the most recent prospectus. Capped expense ratio is a voluntary limit on total fund operating expenses (exclusive of any acquired fund fees and expenses, performance fees, taxes, brokerage commissions and interest) that U.S. Global Investors, Inc. can modify or terminate at any time. Performance data quoted above is historical. Past performance is no guarantee of future results. Results reflect the reinvestment of dividends and other earnings. Current performance may be higher or lower than the performance data quoted. The principal value and investment return of an investment will fluctuate so that your shares, when redeemed, may be worth more or less than their original cost. Performance does not include the effect of any direct fees described in the fund's prospectus (e.g., short-term trading fees of 0.25%) which, if applicable, would lower your total returns. Performance quoted for periods of one year or less is cumulative and not annualized. Obtain performance data current to the most recent month-end at [www.usfunds.com](http://www.usfunds.com) or 1-800-US-FUNDS. Since Inception \*(10/21/91), \*\*(03/01/10). \*\*\* Please refer to the prospectus for Institutional Class shares for details about fee waivers.

## Industry Breakdown

as a percentage of total investments

Hong Kong	1.59%

Please consider carefully a fund's investment objectives, risks, charges and expenses. For this and other important information, obtain a fund prospectus by visiting [www.usfunds.com](http://www.usfunds.com) or by calling 1-800-US-FUNDS (1-800-873-8637). Read it carefully before investing. Distributed by U.S. Global Brokerage, Inc.

Foreign and emerging market investing involves special risks such as currency fluctuation and less public disclosure, as well as economic and political risk.

There is no guarantee that the investment objectives will be met. <sup>1</sup>The S&P Global Infrastructure Index provides liquid and tradable exposure to 75 companies from around the world that represent the listed infrastructure universe. To create diversified exposure across the global listed infrastructure market, the index has balanced weights across three distinct infrastructure clusters: Utilities, Transportation and Energy. <sup>2</sup>Portfolio holdings will change. <sup>3</sup>Fund assets can include, but are not limited to, equities, bonds, cash, receivables, pre-paid expenses and other miscellaneous assets. Fund composition represents key components only and should not be considered a complete financial picture of a fund's assets. Beta is a measure of the volatility, or systematic risk, of a security or a portfolio in comparison to the market as a whole. Information Ratio is the ratio of expected return to risk, as measured by standard deviation. Information Ratio is used to measure portfolio management's performance against a benchmark. Standard deviation is a measure of the dispersion of a set of data from its mean. The more spread apart the data, the higher the deviation. Standard deviation is also known as historical volatility. 11-085
